<i>Present</i>	FOUNDER/CEO of Arcadeup.io, Berkeley CA Led overall company direction while serving as the front-end engineer and UI/UX designer for a team of two. Raised ~\$125,000 from Techstars and AngelList. Consulted for Plated in NYC and John Deere in Des Moines. Designed and wrote two iOS apps, two Google Glass apps and three web apps using modern technologies expanded on below.
JANUARY 2013	LEAD iOS ENGINEER at Radius, Sunnyvale CA Headed development on the startup's mobile app for iOS. Participated in Plug and Play Tech Accelerator during summer 2012. Team split amicably to pursue other interests. Used Core Animation, MapKit, GCD, and adhered to Cocoa/Cocoa Touch good practices.
APRIL 2012	CTO of Foster, New York NY Decided technical direction of young startup directly out of college. Worked as both the front-end engineer and designer on a team of five. Raised ~\$250,000 from angel investors in Durham, Miami and New York. Sourced and managed overseas development team in Chennai, India. Left due to founder issues.
MAY 2011	GRADUATED Duke University, Durham NC Dual degrees conferred in Engineering and Statistics, minor in Theater Studies. Interned at Regeneron Pharmaceuticals and Boston Children's Hospital during the summers between sophomore and junior years. Studied abroad in Australia and New Zealand. Brother of Sigma Alpha Epsilon fraternity. Volunteered at the Center for Race Relations and directed/acted/wrote for indie film company Freewater Productions.
OCTOBER 24, 1989
